Dear Parents,

This is a request. Rather than asking you to sign a permission form for each field trip and extracurricular activity during the year, we are asking your permission just this once. This form will remain on file during entire school year. Our reason for this request is simply that sometimes we are surprised with an unusually beautiful day; tides are just right or frozen muskeg is just perfect on which to walk. When this happens, we may like to introduce your child to some of our natural wonders. The min field trip is just to take the classroom outdoors. After-school sports will have a special permission form for each activity.

My child(ren), listed above, have my permission to accompany his/her classroom on any supervised field trip, during this school year, and/or to participate in the extracurricular activities that are offered through the school
